SENIOR FRONTEND ENGINEER REACT & TYPESCRIPT SPECIALIST

VU NGOC MINH

Senior Frontend Engineer with **8+ years of experience** building high-performance, scalable enterprise web applications. Deep expertise in **React, Next.js, TypeScript, and reusable component-driven architecture** for complex data-intensive UIs. Proven **Team Lead of 8 engineers** delivering mission-critical platforms in **Global Supply Chain / Logistics** and **Commercial Banking (Thai Bank)** domains. Solid full-stack foundation with **Java Spring Boot microservices**. Passionate about **Figma-to-code design implementation, CSS animations**, and AI-augmented developer workflows. Certified **Microsoft Agentic AI Solutions Architect Expert**.

Technical Expertise

Frontend Engineering

React & Next.js: React (Hooks, Context API, Performance Optimization), Next.js (App Router, SSR/SSG/ISR), Reusable Component Architecture, TypeScript (Strict), JavaScript (ES6+).

State & Data Fetching: TanStack Query (React Query), Redux Toolkit, Context API, Custom Hooks, Render Profiling & Optimization, Chrome DevTools & Lighthouse.

UI Systems & Styling: Material UI, Tailwind CSS, Bootstrap, Bulma, SASS/CSS3, Responsive Design, CSS Animations & Transitions (Hardware-Accelerated, 60fps Micro-interactions), Multilingual UI (i18n / Localization).

Design & Prototyping: Figma to Code (Design Token Handoff, Component Specification, Pixel-Perfect Implementation).

Angular: Angular 11, Angular 7+, RxJS Observables, NgRx Store, Reactive Forms, Lazy Loading Modules.

Backend & APIs

Java Spring Boot: Spring MVC, Spring Data JPA, Hibernate, Spring Security, RESTful Microservices.

Other Backends: PHP (Laravel framework for CRM/ERP systems), Node.js (Express basics).

Databases: PostgreSQL, MySQL, Redis (caching), Relational Schema Design & Query Optimization.

API & Security: Contract-First REST APIs, CORS Configuration, JWT Bearer Token Auth, SAML 2.0 SSO, Azure AD, OAuth2/OIDC.

Architecture, Testing & DevOps

Testing & Quality: Jest & React Testing Library, MSW (Mock Service Worker for Network-Level API Mocking), Playwright (E2E Testing), Karma & Jasmine (Angular), Automated CI Test Pipelines, Clean Code.

Build & Modern Tooling: Vite (ESM-first Dev Server), Webpack Build Pipelines, Turborepo & pnpm Workspaces, Git (Feature Branching, Interactive Rebasing, Code Reviews).

AI & Agentic Systems: Agentic AI Solutions Architecture, Azure AI Apps & Agents, GitHub Copilot, AI-Augmented Development Workflows (MCP, AI Rules, Jira Automation).

Cloud & CI/CD: AWS (ECS, S3, CloudFront), Docker Containerization, Jenkins CI/CD Pipelines.

Professional Work Experience

Senior Frontend Engineer / Full-Stack Team Lead Current

`Jun 2022 - Present`

Multinational Logistics & Supply Chain Management Enterprise System • FPT Software

Mission-critical enterprise platform orchestrating global supply chain operations, order management, PO/DO allocation, master data, costing, and international logistics workflows.

- **Team Leadership & Delivery:** Supervised a cross-functional squad of **8 developers** (Frontend & Backend); managed sprint scopes, led frontend architectural reviews, conducted rigorous code reviews, and ensured on-schedule release deliveries.
- **Shared UI Component Library & Architecture:** Architected a domain-driven component hierarchy and designed a shared, highly reusable UI component library across 5+ operational SPAs (Order, Master Data, Cost, Production Plan, Transport); enforced strict TypeScript contracts and design token consistency, eliminating code redundancy across cross-functional squads.
- **Complex Data Interfaces & Batch Operations:** Developed interactive, data-dense interfaces handling large-scale order entry, dirty-state change tracking, multi-cell clipboard operations, and real-time client-side validation using Web Workers for background compute.
- **React Performance & Lifecycle Optimization:** Diagnosed and resolved rendering bottlenecks using React DevTools and Chrome Performance profiler; eliminated re-render cascades via granular hook abstractions, component memoization, and session caching layers.
- **Testing & AI-Augmented Workflows:** Established frontend component test suites using **Jest and React Testing Library**, employing **MSW (Mock Service Worker)** for network-level API mocking; championed modern AI developer workflows (GitHub Copilot, MCP rules for Jira integration), accelerating issue analysis and team sprint velocity.
- **Enterprise Identity & Security:** Implemented single sign-on (SSO) authentication using SAML 2.0 with Azure Active Directory (Azure AD), ensuring secure session propagation, scoped JWT Bearer auth, and token rotation.

`Shared UI Library` `React 16 (Hooks)` `TypeScript` `Jest & MSW` `Performance Profiling` `Web Workers` `Java Spring Boot` `Centralized API Gateway` `AWS ECS` `SAML SSO / Azure AD` `Docker`

Senior Front End Developer

`Dec 2020 - Jun 2022`

Thai Bank Enterprise Banking Web Platform • FPT Software

Commercial internet banking platform for a premier bank in Thailand, serving corporate and commercial customers with strict financial security regulations and high availability requirements.

- **Core Banking Frontend & Figma Translation:** Spearheaded the development of dynamic and responsive banking web applications using **Angular 11 and TypeScript**; collaborated closely with UI/UX designers to translate **Figma design specifications** into accessible, pixel-perfect interfaces with fluid CSS animations and micro-interactions.
- **Reactive State & Asynchronous Data:** Orchestrated complex financial data flows with **RxJS Observables and NgRx store**, handling asynchronous transaction inquiries, request debouncing, and predictable client-side caching.
- **Backend Integration & Security:** Collaborated with the **Java Spring Boot backend engineering team** to establish strict RESTful API contracts, enforce role-based access control (RBAC), and handle secure JWT bearer token authentication.
- **Dynamic Form Engine, Multilingual UI & Component Suite:** Built a modular, reusable UI component suite and dynamic reactive forms with multi-tier validation, integrating **Multilingual UI (i18n / localization for Thai and English locales)**, streamlining corporate account management and fund transfers across modules.
- **Automated Testing & Security Compliance:** Authored automated unit test suites using **Karma and Jasmine** (>80% coverage), participating in code reviews, pen-test remediations, and security audits to maintain zero high-severity vulnerabilities.

`Angular 11` `TypeScript` `Figma to Code` `CSS Animations` `i18n / Multilingual UI` `RxJS & NgRx` `Java Spring Boot APIs` `JWT Auth & RBAC` `Karma / Jasmine` `Banking Security` `Docker & Jenkins`

Full Stack Developer

`Jul 2018 - Dec 2020`

Multiple Enterprise CRM & ERP Projects • Halozend Soft

- Engineered end-to-end CRM and ERP web applications utilizing **Angular 7+ (Angular 7, 8, 9)** for frontend and **PHP Laravel** with MySQL for the backend.
- Structured modular Angular architectures utilizing lazy loading, route guards, custom directives, and HTTP interceptors.
- Developed interactive analytics dashboards with Chart.js and customized reporting features, delivering projects reliably on schedule.

`Angular 7+ (7/8/9)` `TypeScript` `PHP Laravel` `MySQL` `RESTful APIs` `Chart.js`

Junior Front End Developer

`Jan 2016 - Jul 2018`

E-Commerce Websites & Interactive Web Platforms • Halozend Soft

- Developed responsive, mobile-first e-commerce web applications using HTML5, CSS3/SASS, JavaScript (ES6+), and custom WordPress themes.
- Wrote object-oriented JavaScript scripts for client-side form validation, interactive calculators, dynamic shopping cart updates, and cross-browser consistency.

`HTML5 & CSS3` `JavaScript (ES6+)` `WordPress` `Responsive UI`

Verified Professional Certifications

Microsoft Certified: Agentic AI Business Solutions Architect Expert
Microsoft
`Issued: Sep 2026 • Credential ID: 3BE14B37E1076EAA • Cert: 59B1LB-3B2453`
Verify Credential →

Microsoft Certified: Azure AI Apps and Agents Developer Associate
Microsoft
`Issued: Jul 2026 • Credential ID: 18BD1F0D35E32C98 • Cert: AA54E6-9E2A9Z`
Verify Credential →

GitHub Copilot Certified
Microsoft / GitHub
`Issued: May 2026 • Credential ID: 5319CCC6DF385E06 • Cert: AA42DF-5456EA`
Verify Credential →

Senior React Developer
Udacity
`Issued: Jul 2022`

Senior Angular Developer
