SENIOR SOFTWARE ENGINEER FULL-STACK TECH LEAD

VU NGOC MINH

Senior Software Engineer with **8+ years of experience** architecting, developing, and delivering scalable enterprise applications. Dual-stack expertise in **Frontend (React 16, Angular 7+, Angular 11, TypeScript)** and **Backend (Java Spring Boot, RESTful Microservices)**. Experienced **Team Lead of 8 engineers** with a track record in **Global Supply Chain Management / Enterprise Logistics** and **Commercial Banking Platforms (Thai Bank Project)**. Certified **Microsoft Agentic AI Solutions Architect Expert** and **Azure AI Apps & Agents Developer Associate**.

Technical Expertise

Comprehensive overview of production-proven competencies.

Frontend Engineering

`Expert`

React: React 16 (16.8+ Hooks, Context API, Lifecycle & Optimization), TypeScript, JavaScript (ES6+).

Angular: Angular 11, Angular 7+, RxJS Observables, NgRx Store, Reactive Forms, Lazy Loading Modules.

State Management: Redux Toolkit, Context API, Custom Hooks, RxJS Subjects, Client Caching.

Data Grids & UI: Custom Enterprise Spreadsheet Components, High-density Data Grids, Web Components, SASS/CSS3, HTML5.

Backend & APIs

`Advanced`

Java Spring Boot: Spring MVC, Spring Data JPA, Hibernate, Spring Security, RESTful Microservices.

Other Backends: PHP (Laravel framework for CRM/ERP systems), Node.js (Express basics).

Databases: PostgreSQL, MySQL, Redis (caching), Relational Schema Design & Query Optimization.

API Integration: Contract-First REST APIs, OpenAPI/Swagger Documentation, Centralized API Gateway Integration.

AI, Cloud & DevOps

`Proficient`

AI & Agentic Systems: Agentic AI Solutions Architecture, Azure AI Apps & Agents, GitHub Copilot.

Security & Identity: SAML 2.0 SSO, Azure Active Directory (Azure AD), OAuth2, JWT Bearer Token Security.

Cloud & DevOps: AWS (ECS, S3, CloudFront), Docker Containerization, Jenkins CI/CD Pipelines, Git.

Testing & Quality: Karma & Jasmine (Angular), Jest, React Testing Library, Code Reviews, Clean Code.

Professional Work Experience

Track record of leadership, full-stack implementation, and technical delivery.

Senior Full Stack Developer / Team Lead Current

`Jun 2022 - Present`

Multinational Logistics & Supply Chain Management Enterprise System • FPT Software

Mission-critical enterprise platform orchestrating global supply chain operations, order management, PO/DO allocation, master data, costing, and international logistics workflows.

- **Team Leadership & Delivery:** Supervised a cross-functional squad of **8 developers** (Frontend & Backend); managed sprint scopes, technical design discussions, code quality reviews, and on-schedule release deliveries.
- **Full-Stack Application Development:** Architected and built domain-specific Single Page Applications using **React 16 (Hooks & Context API) with TypeScript** on the frontend, integrating seamlessly with containerized **Java Spring Boot microservices** hosted on AWS ECS via a centralized API Gateway.
- **High-Density Enterprise Grid Engineering:** Developed and optimized custom interactive spreadsheet components capable of handling high-volume order data, dirty-cell tracking, multi-cell clipboard operations, and real-time client-side Excel validation.
- **Performance Tuning & Caching:** Eliminated memory leaks and sluggish re-renders in data-intensive screens through component memoization, granular hook-based state management, and optimized session storage caching.
- **Enterprise Identity & Security:** Implemented single sign-on (SSO) authentication using SAML 2.0 with Azure Active Directory (Azure AD), ensuring secure session propagation across independent enterprise domains.
- **Engineering Mentorship:** Guided and mentored junior engineers on coding best practices, clean design patterns, and debugging methodologies, fostering sustained team productivity.

`React 16 (Hooks)` `TypeScript` `Java Spring Boot` `Custom Spreadsheet Grid` `Centralized API Gateway` `AWS ECS` `SAML SSO / Azure AD` `Docker`

Senior Front End Developer

`Dec 2020 - Jun 2022`

Thai Bank Enterprise Banking Web Platform • FPT Software

Commercial internet banking platform for a premier bank in Thailand, serving corporate and commercial customers with strict financial security regulations and high availability requirements.

- **Core Banking Frontend:** Spearheaded the development of dynamic and responsive banking web applications using **Angular 11 and TypeScript**, significantly enhancing customer experience for banking clients.
- **Reactive State & Asynchronous Data:** Orchestrated complex financial data flows with **RxJS Observables and NgRx store**, handling asynchronous transaction inquiries, request debouncing, and predictable client-side caching.
- **Backend Integration:** Collaborated with the **Java Spring Boot backend engineering team** to establish strict RESTful API contracts, enforce role-based authorization, and ensure high data integrity across financial operations.
- **Dynamic Form Engine:** Built reusable UI components and dynamic reactive forms with multi-tier validation, streamlining corporate account management and fund transfers.
- **Automated Testing & Security Compliance:** Authored automated unit test suites using **Karma and Jasmine** (>80% coverage), participating in code reviews and security audits to maintain zero high-severity vulnerabilities.

`Angular 11` `TypeScript` `RxJS & NgRx` `Java Spring Boot APIs` `Karma / Jasmine` `Banking Security` `Docker & Jenkins`

Full Stack Developer

`Jul 2018 - Dec 2020`

Multiple Enterprise CRM & ERP Projects • Halozend Soft

- Engineered end-to-end CRM and ERP web applications utilizing **Angular 7+ (Angular 7, 8, 9)** for frontend and **PHP Laravel** with MySQL for the backend.
- Structured modular Angular architectures utilizing lazy loading, route guards, custom directives, and HTTP interceptors.
- Developed interactive analytics dashboards with Chart.js and customized reporting features, delivering projects reliably on schedule.

`Angular 7+ (7/8/9)` `TypeScript` `PHP Laravel` `MySQL` `RESTful APIs` `Chart.js`

Junior Front End Developer

`Jan 2016 - Jul 2018`

E-Commerce Websites & Interactive Web Platforms • Halozend Soft

- Developed responsive, mobile-first e-commerce web applications using HTML5, CSS3/SASS, JavaScript (ES6+), and custom WordPress themes.
- Wrote object-oriented JavaScript scripts for client-side form validation, interactive calculators, dynamic shopping cart updates, and cross-browser consistency.

`HTML5 & CSS3` `JavaScript (ES6+)` `WordPress` `Responsive UI`

SENIOR ENGINEERING DEEP DIVE

Architecture & Engineering Highlights

Selected system architecture problems and engineering solutions delivered in production.

High-Density Enterprise Data Grid

Solved severe browser latency in complex PO allocation screens by implementing windowed DOM rendering, dirty-state mutation tracking, and background processing for client-side Excel parsing.

`React 16 • Custom Spreadsheet • Web Workers`

Domain-Driven SPAs & Caching

Maintained modular, independent domain SPAs sharing shared UI and utility foundations, decoupling operational domains while ensuring unified user state across tabs and navigation flows.

`Domain Architecture • Custom Hooks • Session Cache`

Enterprise Identity & Security

Implemented SAML 2.0 SSO via Azure AD across domain frontends, integrating with centralized API Gateway routing and validating bearer token expiration and renewal gracefully.

`SAML 2.0 • Azure AD • API Gateway Security`

Verified Professional Certifications

Microsoft Certified: Agentic AI Business Solutions Architect Expert

Microsoft • Issued Sep 2026

Credential ID: `3BE14B37E1076EAA` • Cert: `59B1LB-3B2453`

Verify Credential

Microsoft Certified: Azure AI Apps and Agents Developer Associate

Microsoft • Issued Jul 2026

Credential ID: `18BD1F0D35E32C98` • Cert: `AA54E6-9E2A9Z`

Verify Credential

GitHub Copilot Certified

Microsoft / GitHub • Issued May 2026

Credential ID: `5319CCC6DF385E06` • Cert: `AA42DF-5456EA`

Verify Credential

Senior React Developer

Udacity • Issued Jul 2022

Senior Angular Developer

Certificates.dev • Issued Jun 2022

Education

Ho Chi Minh City University of Science (HCMUS)

Bachelor of Science in Software Engineering

`Graduated: Nov 2020`

Ho Chi Minh City University of Industry & Trade (HUIT)

Bachelor of Science in Chemical Engineering

`Graduated: Oct 2014`
